SUMMARY

Highly skilled in web development with proficiency in programming languages like HTML5, CSS3, Java, JavaScript, C, C++, C# and frameworks like React.js, Node.js, and Express.js. Demonstrates expertise in debugging, utilizing data structures, and adept problem-solving abilities. Strong experience in databases like MongoDB, Microsoft SQL Server, MySQL, and Oracle. Accomplished web developer with successful academic projects including a Zomato clone website, a COVID-19 information website, etc. Proficient in Git, Visual Studio Code, Visual Studio 2019/2022, Eclipse and Intelli J Idea.

EDUCATION

Humber College Institute of Technology, Toronto, ON
Ontario Graduate Certificate in Enterprise Software Development   January 2023 **-** August 2023

University of Mumbai, Mumbai, India
Bachelor of Science in Information Technology.   June 2019 - June 2022

CONTRIBUTED TO PROJECT FOR COMPANY

Incident Chatbot TTC(Toronto Transit Commission)   April 2023 – August 2023
Ontario, Toronto

- Pioneered the Incident Chatbot project at TTC, introducing new technology to the team as the team leader.
- Conducted in-depth research on Microsoft Power Virtual Agent, the chosen technology, to gain a thorough understanding.
- Acquired proficiency in the technology through self-learning and skill development, facilitating its effective implementation in the project.
- Established the entire data flow for the project, incorporating the newfound knowledge to optimize incident data collection, ticket generation, and database storage.
- Guided the team in navigating the intricacies of the new technology, fostering a collaborative learning environment.
- Orchestrated the development of an intuitive user interface, ensuring a seamless user experience despite the team's initial unfamiliarity with the technology.

TECHNCAL SKILLS

Programming Languages:	HTML5, CSS3, Java, JavaScript, C, C++, C#
Frameworks:	React.js, Node.js, Express.js
Database:	Mongo DB, Microsoft SQL Server, MySQL
Tools:	Git, Visual Studio Code, Visual Studio 2019/2022, Eclipse

ACADEMIC PROJECTS

BestBuy Clone Website(React)   January 2024 – Presently working

- Created JSON data for mobile and watches, made it live on GitHub, and seamlessly integrated it to serve as the foundational dataset for the project.
- Designed and created the prototype version of the React-based BestBuy clone website using Adobe XD. Developed a comprehensive and visually appealing user interface prototype for effective demonstration and testing.

COVID Website(ASP.NET)   June 2021 – December 2021

- Established a dedicated page with medically validated information on available vaccines nationwide, approved for future use. Designed a comprehensive "Health" page offering insights into general food habits to boost immunity and enhance recovery speed.
- Developed a "Seek Help" page consolidating information on bed availability, oxygen services, and ambulance services for easy access. Successfully created sign-in and login functionality, along with an admin module that efficiently manages members and related data on the website.

CERTIFICATIONS

Web Design and Development   September 2023 – Present

- Skills:- Adobe Photoshop · Adobe XD · Adobe Illustrator · Figma · Firebase · HTML5 · Cascading Style Sheets (CSS) · JavaScript · React.js · Node.js

Full Stack Development(MERN stack)   September 2022 – December 2022

- Skills:- REST APIs · JSON · Mongo · Express.js · HTML5 · Cascading Style Sheets (CSS) · JavaScript · React.js · Node.js
